

NPIC/TSSG/DED-1480-69

21 January 1969

MEMORANDUM FOR : Chairman, Operational Clearance Committee
ATTENTION : Chief, Security Branch, SSD/TSSG/NPIC
SUBJECT : Request for T, KH, and SI Clearances

1. It is requested that T, KH, and SI Clearances be granted to []

[] Both individuals currently have an Agency Top Secret Clearance.
[] is a Senior Engineering Specialist and [] is an Engineering Specialist
and both are actively engaged in the current NPIC/ATR program.

2. These men are intimately involved with equipment and software design and implementation of same with the Imagery Processor and associated equipment. This device will be a primary breadboard for the planned March/April demonstration of the feasibility of automatic cloud screening.

3. The Imagery Processor has just been moved into the T, KH, SI vault area at [] so that all future work with this device will be done on KH material. In order that maximum utilization of the Imagery Processor and these engineers be realized, not only on the current phase of cloud screening work but also on the subsequent development of an engineering prototype, it is imperative that T, KH, and SI Clearances be granted as soon as possible.
